Prefer not to answer	1	1.6
Total	62	100.0

*Per section 401(2) of the McKinney-Act, 42 U.S.C. 11360, Chronically homeless means: as an individual or family that is homeless and resides in a place not meant for human habitation, a safe haven, or in an emergency shelter, and has been homeless and residing in such a place for at least 1 year or on at least four separate occasions in the last 3 years. The statutory definition also requires that the individual or family has a head of household with a diagnosable substance use disorder, serious mental illness, developmental disability, posttraumatic stress disorder, cognitive impairments resulting from a brain injury, or chronic physical illness or disability.

A shorter way to put it: A person living in emergency shelter, safe haven, or a place not meant for habitation who has a disability, and who has been homeless for at least one year or at least four times in the past three years (total time would equal 12 months or more).
