Questioning	0	0.0
Prefer not to answer	1	1.4
Total	72	100.0

*Per section 401(2) of the McKinney-Act, 42 U.S.C. 11360, Chronically homeless means: as an individual or family that is homeless and resides in a place not meant for human habitation, a safe haven, or in an emergency shelter, and has been homeless and residing in such a place for at least 1 year or on at least four separate occasions in the last 3 years. The statutory definition also requires that the individual or family has a head of household with a diagnosable substance use disorder, serious mental illness, developmental disability, posttraumatic stress disorder, cognitive impairments resulting from a brain injury, or chronic physical illness or disability.

A shorter way to put it: A person living in emergency shelter, safe haven, or a place not meant for habitation who has a disability, and who has been homeless for at least one year or at least four times in the past three years (total time would equal 12 months or more).

All responses are based on the respondent unless otherwise noted.
